May 2023

Phnom Penh

- Formulating and presenting creative solutions during the final presentation stage
- **Personal Growth:** Gaining a deeper understanding of sustainable development goals and honing presentation skills for real-world applications.

Hakathon 2023: KH-Reating Chlart for Canadia Bank

Hackathon Win (2023):

- Got 3rd place in a Hackathon focused on helping Canadia Bank with its challenges.
- Led a team to create a special tool using beacon technology to help the bank share info with customers more efficiently.
- We directly tackled the bank's problems, making sure our solution met their needs.
- Our project made things better for customers and the bank, showing that even small changes can have a big impact.

Good Teamwork:

- Worked well with the team, and together, we did a great job.
- Showed we're up-to-date with the latest technology by using beacon technology, proving we're innovative problem-solvers.
